1. Ani, A. S., & Jyothi Prasad, B. M. (2020), "Protective coatings for bio-composites – a review," IOP Conference Series: Materials Science and Engineering, 925(1), 012048.
2. Sampath, H. P., & Naik, V. (2020), "Study of quasi-static compression behaviour of hollow tubes made of glass/epoxy composite," IOP Conference Series: Materials Science and Engineering, 925(1), 012045.
DOI: <https://doi.org/10.1088/1757-899X/925/1/012045>
3. Dhotre, P. K., & Srinivasa, C. V. (2021), "Modal characterization of sandwich skew plates," Acta Mechanica et Automatica, 15(3),143–153. DOI: <https://doi.org/10.2478/ama-2021-0019>
4. Banagar, A. R., Srinivasa, C. V., & Basavaraju, B. (2021), "Studies on physical and mechanical properties of untreated (raw) and treated areca leaf sheaths," Materials Research Innovations, 25,404–411. DOI: <https://doi.org/10.1080/14328917.2020.1834747>
5. Rampur, V. V., Banagar, A. R., Ganesh, U., Reur, S. C., Srinivasa, C. V., et al. (2020), "Mechanical characterization of wood apple and coconut shell reinforced hybrid composites," AIP Conference Proceedings (ICCEMS 2020). DOI: <https://doi.org/10.1063/5.0003833>
6. Srujan S Kashyap., (2024) "Wear analysis of Epoxy Based Natural fibre hybrid composites", International Conference on Advances in Engineering Design, Manufacturing and mobility (AEDMM-2024). 19th and 20th June 2024.
